I'm a frontend developer passionate about creating beautiful and user-friendly web experiences. I'm working with React, Next.js, TypeScript & Node.js.

Experiences

Frontend Developer at [TashilCar](#)

Dec 2022 - Present

Tehran, Iran

In TashilCar, I worked on five projects: an admin panel, three web apps for their users, and a package for shared UIs between their projects. I worked with React, Next.js, TypeScript, styled-components, Git, and Figma.

I developed an icon package (TashilIcon) for them. It imports icons from a Figma file and exports them as a React component.

Frontend Developer at [Fanap Plus](#)

Jan 2021 - Nov 2022

Tehran, Iran

In Fanap Plus, I developed the [Gereh](#) web app. I worked with React, TypeScript, Next.js, Tailwind CSS, Git, and Figma.

One of my challenges in the Gereh app was implementing React recursive rendering for the comment component.

Frontend Developer at [Arsh E-Commerce Service (AES)](#)

Nov 2019 - Dec 2020

Tehran, Iran

In Arsh Co., I developed [Uneed](#), [BIZ](#), Uride, and their admin panels. I built their [website](#) with WordPress, too. I worked with React, React Redux, Redux Saga, Formik, Bootstrap, Flow, JavaScript, styled-components, Git, and Zeplin.
